

X AMBASSADORS

X Ambassadors are a multi-platinum trio formed by brothers **Sam Nelson Harris** (vocals, guitar, saxophone, bass) and **Casey Harris** (piano, keys) while the pair were in high school in Ithaca, New York. Later joined by **Adam Levin** (drums) upon moving to Brooklyn, the trio have gone on to dominate the alternative charts over the last decade.

Forming in 2009, the band exploded with the success of their debut album, *VHS* (2015). The Platinum-certified album provides an intimate look into the childhood of Sam and Casey, and features massive hit singles “**Unsteady**” and “**Renegades**,” which have over **1.3 billion streams** on Spotify combined and led the band to a three-year world tour. *VHS* was followed by *ORION* (2019), the *Belong* EP (2020), *The Beautiful Liar* (2021) and *(Eg)* (2023), a series of collaborative singles featuring artists such as BRELAND, Teddy Swims & Jac Ross, Medium Build, and PAMÉ.

Most recently, the band unveiled a new song, “Deep End,” which was written for and featured in the much-anticipated movie *Aquaman and the Lost Kingdom*. The track is just the latest contribution the band has made to major films following “Torches”

(*Transformers*), “Great Unknown” (*The Call of the Wild*) and “Sucker for Pain” (*Suicide Squad*) among others.

Outside of X Ambassadors, Sam Nelson Harris has had an eclectic career as a songwriter and producer for artists such as **D4VD, 21 Savage, Rihanna, Lizzo, Travis Scott, The Weeknd, SZA** and **Maren Morris**. He has also collaborated with artists including **Eminem, Jay-Z, Jacob Banks, K.Flay, grandson, The Knocks, Kygo, Illenium** and **Machine Gun Kelly**. Sam has played the world’s biggest music festivals, headlined countless nationwide and world tours, celebrated a #1 song at Alternative radio and multiple songs in the Top 10. He has recently begun releasing his own solo music for the first time under the name of Sam Nelson.

X Ambassadors will return with their new album *Townie* on **April 5**—an album that marks a compelling new chapter for the band as they return to their upstate New York roots. Across 12 deeply personal tracks, the group crafts an intricate portrait of their hometown’s most mundane aspects and the community that shaped them.
